What We Do

End-to-End Data & AI Solutions

From strategy to implementation, we deliver comprehensive solutions that transform how enterprises leverage data.

Six Pillars of Excellence

Strategy & Governance

Data strategy, governance frameworks, COE setup

Data Platform Build

Azure, Databricks, Fabric implementations

Analytics & BI

Power BI, semantic models, self-service analytics

MLOps & AI

Production AI, GenAI integration, ML pipelines

Managed Services

24/7 support, optimization, health monitoring

Enterprise Training

Bootcamps, certifications, knowledge transfer

Industries We Serve

Deep Expertise Across Sectors

Energy & Utilities

Financial Services

Public Sector

Healthcare

World-Class Expertise

Prince Andrew

CEO & Founder

12+ years in enterprise data

Sarah Chen

CTO

15+ years data architecture

Dr. Priya Sharma

VP AI & Innovation

PhD ML, 10+ years AI

David Thompson

VP Training

2,000+ students trained

50+ Years Combined Experience | 40+ Professional Certifications | Fortune 500 Project Experience

Comprehensive Solutions

Our Services

Strategy & Governance

- Data Strategy Development
- Governance Framework Design
- Center of Excellence Setup
- Data Quality Programs

Data Platform Build

- Azure Data Platform
- Databricks Lakehouse
- Microsoft Fabric
- Data Migration

Analytics & BI

- Power BI Implementation
- Semantic Models
- Self-Service Analytics
- Embedded Analytics

MLOps & AI

- GenAI Integration
- ML Pipeline Development
- Model Monitoring
- Azure OpenAI Solutions

Managed Services

- Platform Monitoring
- Performance Optimization
- Incident Response
- Continuous Improvement

Enterprise Training

- Custom Bootcamps
- Certification Prep
- Knowledge Transfer
- Team Upskilling

Technology Partners

Microsoft Azure

Databricks

Microsoft Fabric

Power BI

Snowflake

AWS

Google Cloud

40+ Azure Certifications | Databricks Certified Architects | Power BI Specialists

Success Stories

Case Studies

Case Study

Major Energy Company

Challenge:

Legacy data warehouse modernization

Solution:

Azure Databricks lakehouse

Result:

60% cost reduction, 10x faster queries

Financial Services Firm

Challenge:

Real-time fraud detection

Solution:

Azure ML + Databricks streaming

Result:

85% fraud detection improvement
